IOTA CONTEST ---> Back in April the RSGB Contest Committee decided that to minimise the impact of COVID-19, the IOTA Contest in 2020 is exclusively for Single Operators using their home stations: only "SO Fixed Island" stations and "SO Fixed World" stations will be eligible to compete in this year's event. However, any island station will count for the island points and multiplier, even if that station is not in the competition. Moreover, IOTA Ltd has confirmed that "island contacts made over the weekend will count for its IOTA Programme in the normal way".

The IOTA Contest will be held from 12 UTC on 25 July until 11:59 UTC on 26 July, on 80, 40, 20, 15 and 10 metres CW and/or SSB. Complete details can be found on the RSGB Contest Committee's website:

<https://www.rsgbcc.org/hf/rules/2020/riota.shtml>.

The following stations are expected to be active during the contest weekend from qualifying islands. For latest additions please give a look at the announced operations list maintained by Bill, NG3K:

9A20A ---> The 18-31 July operation from the Palagruza Islands (EU-090) [425DXN 1521] has been cancelled owing to health and safety issues arising from the COVID-19 pandemic.

QSO TODAY VIRTUAL HAM EXPO ---> "The first QSO Today Virtual Ham Expo scheduled for 8-9 August has already registered over 11,000 hams", Eric Guth (4Z1UG) announced on 20 July, "and with almost 3 weeks before the event, the number of registrants continues to increase significantly every day". The event will be held on a live virtual reality platform that simulates a full convention experience with an exhibit hall and exhibit booths staffed by live attendants, speaker auditorium, lobby, and lounges. Attendance is free and there are early bird prize incentives (donated by sponsors) for registering by 24 July: <https://www.qsotodayhamexpo.com/>. The QSO Today Virtual

Ham Expo will run for 48 hours as a live event, then attendees will be able to access all speaker presentations and exhibitor booth content for another 30 days.

SABLE ISLAND 2021 ---> The CY0C DXpedition to Sable Island, originally scheduled for 17-26 October, has been postponed until October 2021 due to the ongoing pandemic. Foundations, clubs and individuals who have already contributed to the DXpedition can choose whether to get "a complete and total refund", or "to apply their donations to the 2021 Sable Island CY0C DXpedition". See <http://cy0dexpedition.net/index.html>.

XR0YHM ---> Hans-Martin, DK2HM has had to cancel his XR0YHM operation from Easter Island [425DXN 1511]. He expected to be QRV from 27 August to 7 September, but "all flights have been cancelled by the air company now, and there is no chance at the moment to postpone the flight tickets or to get a safe new date for a future activity".

YASME SUPPORTING GRANT TO OX3NUK ---> The Yasme Foundation has allocated funds for the purchase of equipment to upgrade the OX3NUK club station in Nuuk, Greenland. In addition to helping the club stay active on the air, the station can serve as a venue to promote amateur radio through outreach to local schools and the Scouts for their fall Jamboree. The Yasme Foundation (<http://www.yasme.org/>) is a not-for-profit corporation organized to support scientific and educational projects related to amateur radio, including DXing and the introduction and promotion of amateur radio in developing countries.
